

REMS compression heads

Accessories for REMS Ax-Press HK, REMS Ax-Press H,
REMS Ax-Press 25 22V ACC, REMS Ax-Press 25 L 22V ACC

REMS compression heads with spring lock for commercially available press inserts

Description	Use
Compression head Basic 20 (pack of 2)	for pipe fittings 20 mm and for standard press inserts outer Ø 20 mm
Compression head Basic 25 (pack of 2)	for pipe fittings 25 mm and for standard press inserts outer Ø 25 mm
Compression head Basic 32 (pack of 2)	for pipe fittings 32 mm and for standard press inserts outer Ø 32 mm

REMS twin compression heads

Description	Use
Twin compression head RH 16/20 (pack of 2)	for pipe fittings 16 and 20 mm

REMS compression head for T-pieces, elbows, splitters, transition pieces

Description	Use
Compression head UNI T/L (piece)	for T-pieces, elbows, splitters, in combination with an additional compression head; for transition pieces, in combination with a support bol

REMS support bolt for transition pieces

Description	for transition pieces inch	Art.-No.	лв.
Support bolt 3/8"	3/8	573647R	26,50
Support bolt 1/2"	1/2	573648R	30,40
Support bolt 3/4"	3/4	573649R	34,30

Commercially available
press inserts:

T's and
elbows

REMS compression heads

Select compression heads yourself!

Search for the required compression sleeve system in the table below and select the correct compression heads.

High-grade compression heads in forged and specially hardened steel. Quickly interchangeable, without tools. The REMS compression heads are system-specific and comply with the requirements of the respective compression sleeve system. Thus perfect system-conformity, safe jointing. Drive through REMS axial presses.
