REMS Ex-Press Cu

Hand tube expander

Proven quality tool for expanding and calibrating pipes for pipe installation without fittings.	
Soft copper tubes s ≤ 1.5 mm	Ø 8 – 42 mm Ø ⅜ – 1⅛"
Soft aluminium tubes, soft precision steel tubes s ≤ 1.2 mm	Ø 8 – 42 mm Ø ⅜ – 1⅛"
Soft stainless steel tubes s ≤ 1 mm	Ø 8 – 42 mm Ø ⅜ – 1⅛"

REMS Ex-Press Cu – for making sockets yourself. 6-face mandrel for even and concentric expanding. Extra long sockets according to DVGW. Expander heads with calibration neck, fit other makes as well.

Cost advantage

Pipe installation without fittings. No costs for fittings, storage, procurement. Savings in soldering joints, soldering material and working hours. Using up pipe pieces to provide sockets.

Design

Robust quality tool. Torsion-free, power-transmitting expander levers with ergonomically designed handles, for effortless expanding. 6-face mandrel for even and concentric expanding. Extra long sockets, spring-loaded return of mandrel release. Also for other suitable makes of expander heads.

Expander heads

Quick-change. Extra long expander heads result in extra long sockets for perfect pipe connections according to DVGW. Special neck at expander head specially for calibration of deformed pipe ends.
