## REMS Push - reliable pressure hold.

## Universal use

For plumbing, heating, solar system and sprinkler installations, for compressed air, steam and cooling systems, oil installations, for boiler and pressure vessel building.

## Design

Robust, job-site proven metal design for tough use. REMS Push with corrosionresistant, powder-coated 12 ltr steel tank. Distortion resistant lever with ergonomic handle, doubles as carrying handle when locked. Wear resistant pressure piston in brass, $\varnothing 30 \mathrm{~mm}$. High-pressure hose with $1 / 2$ "-connection. Fine scale pressure gauge (accessory), $\mathrm{p} \leq 1.6 \mathrm{MPa} / 16 \mathrm{bar} / 232 \mathrm{psi}$, for reading a pressure change of $0.01 \mathrm{MPa} / 0.1$ bar/1.45 psi for tightness testing according to DIN 1988 ,

## as accessory.

## Stainless steel tank

REMS Push INOX with 12 ltr stainless steel tank. For extremely long life.

## Functioning

Pressure and tightness test with water or oil. Double valve system for reliable pressure built-up, with rust-proof steel balls. High pumping capacity with long stroke, fine pressure adjustment at short pushes. High pressure hose with fabric ply prevents measurement errors.
