Powerful, compact electric tool for efficient machining of T-branches of hard and soft tubes for tube installations without fittings.

Hard and soft copper tubes

Ø 10 – 22 mm Ø 3/8 - 7/8" s ≤ 1.5 mm

# REMS Hurrican – for making T-branches yourself. Inexpensive. Also on tubes already installed.

### System advantage

Only  $\overline{\mbox{one}}$  type of extractor tools for REMS Hurrican H, REMS Hurrican and  $REMS\ Twist/Hurrican.\ Simple,\ in expensive\ storage.\ No\ confusion\ possible.$ 

## Cost advantage

No costs for T-branches, storage, procurement. Savings in soldering joints, soldering material and working hours. Higher safety by fewer tube joints.

### Design

Compact, handy, light. Can be used anywhere, free-hand, on pipes already installed. Drill head provides precise drilling without punching with any standard  $\,$ power drill. Drill depth-stop according to the size of T-branch. Tool holder for holding the extractor tools. Limitation of insertion depth to avoid obstruction by using the dimpling pliers. Handy grip wrench for clamping the tool holder onto the pipe.

#### Drive

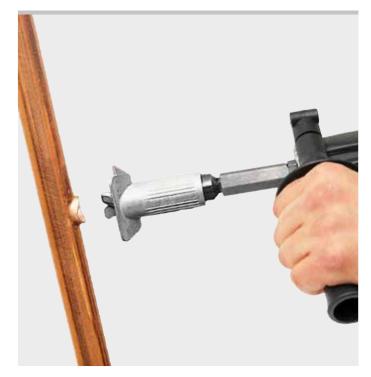

Proven drive unit with hexagon mount. Enormously powerful. Handly, light, only 1.5 kg. Can be used anywhere, free-hand, also on pipes already installed. Robust, maintenance-free gear with safety slipping clutch. Universal motor, 630 W, high-torque forward and reverse at low speed. Stepless, electronic speed control. The speed can be continuously controlled electronically by variable pressure on the safety switch from 0 to 1,000 rpm (accelerator switch).

#### Extractor tools

Special design of extractor tools facilitate even and smooth material deformation without burrs and notches. Therefore no secondary treatment required.

# **REMS Twist/Hurrican**

Space and weight-saving combination set for efficient production of T-branches and for efficient cold-expanding of hard and soft tubes for installations without fittings. Only one drive unit for expanding and extracting tools. Price advantage! See page 261.

German Quality Product

# Supply format

REMS Hurrican Set. Electric tube extractor for hard and soft copper tube Ø 10 – 22 mm, Ø  $\frac{3}{8}$  –  $\frac{7}{8}$ ", s ≤ .5 mm. Drive unit with hexagon mount, maintenancefree gear, universal motor 230 V or 110 V, 50-60 Hz, 630 W. High torque at low speed, left and right-hand rotation. Safety tip switch. Continuous, electronic speed control from 0 to 1,000 rpm (accelerator switch). Drive holder. Tool holder, drill head, dimpling pliers, lubricant. Extractor tools for pipes in mm or inch. In sturdy steel case.
